**Cardiac medications THAT SHOULD BE TAKEN DAY OF SURGERY**

Amlodipine (Norvasc)  
Amiodarone (Cordarone)  
Clonidine (Catapres)  
Digoxin (Lanoxin)  
Diltiazem (Cardizem)  
Flecainide (Tambocor)  
Hydralazine (Apresoline)  
Nifedipine (Procardia XL, Adalat CC, Afeditab CR, Procardia)  
Propafenone (Rythmol)  
Verapamil  
Midodrine

**Other Medication patients should be instructed to TAKE DAY OF SURGERY**

Acid reducers  
ADHD meds  
Anxiety/Depression meds  
Asthma/Pulmonary meds  
Bipolar meds  
Chemo meds  
HIV/AIDS meds  
Hormones  
Inhalers (take/bring)  
Oral contraceptives  
Pain meds  
Parkinson's/Alzheimer's/Dementia meds  
Renal meds for those in renal failure  
Seizure meds  
Steroids  
Thyroid meds  
Transplant Anti-rejection meds
