COVID-19

Thank you for trusting Lakeview Surgery Center with your care.

We have implemented the following to keep our patients and staff safe and prevent the spread of COVID-19:

- All patients require a COVID-19 test within 72 hours of your surgery. Your surgeon will explain to you the process of getting tested.
- Once you are tested, you must self-quarantine until your surgery.
- We will contact you with a positive test result via text/phone call. If the test result is still pending the day of surgery, we will notify you with instructions to wait to enter the building until contacted.
- Masks are required by everyone when entering the building. If you do not have one, we will provide you with one. Your driver will be asked to wait outside if they do not want to wear a mask and the surgeon will notify them once your surgery is completed.
- No children (under 18) are allowed in the building unless they are the patient.
- Visitors are limited to one adult per adult patient. Pediatric patients are allowed to have both parents with them.
- If you are experiencing symptoms of COVID-19 (fever, cough, shortness of breath, sore throat), please contact our facility at 515-273-5240 prior to arrival.
- If you have a positive COVID-19 test, your surgery will need to be rescheduled greater than 28 days from your positive test. You will not need to re-test prior to your surgery.
